Smartphone Clip On Lens Attachment*

This Tokai set contains 2 clip on lenses:
 1) Supwide 0,4 X lens
 2) FISH EYE LENS 0,4 X lens

These clip-ons are great for digital cameras and mobile phones. An excellent promotional item.

Thickness Comparison Box*

This Tokai set compares the thickness of the lenses of index 1.50 and index 1.76. It explains how a lens with index 1.76 and double surface aspheric lens is 50% thinner than a conventional lens.

Lutina Display*

A demonstration kit to explain the benefits of the Lutina lens. The display incorporates a set of 3 lenses (Lutina, photochromic and standard) and a laser pen.

The kit demonstrates how the Lutina lens helps to protect the lutein in the eyes in comparison to the photochromic lens when high energy light is emitted.

Pupilar Distance Ruler

The ruler has a measurement range of 0 - 150 mm. Lightweight and flexible. The nose bridge makes sure that the ruler stays stationary and perfectly centered.

The rulers are customized with the Tokai logo.

Plastic Ice Scraper

Customized with Tokai logo.

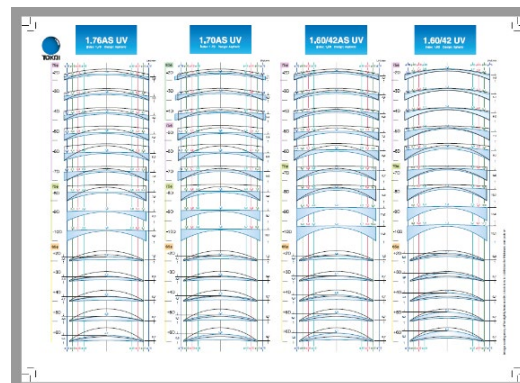

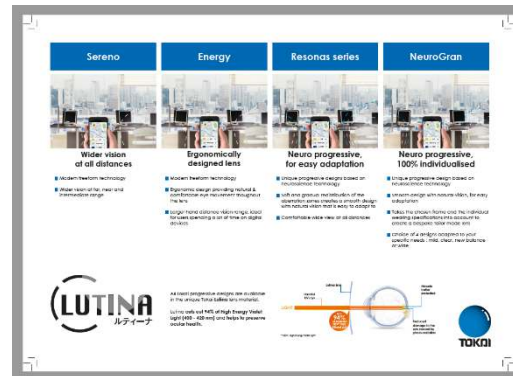

Placemat with progressive lens comparison and lens thickness comparison

This placemat will help customers to understand the differences between the progressive lens designs but also the differences in thickness, dependent of the index and diopter.

The frontside of the placemat is the progressive lens design comparison with its advantages. The backside is a thickness comparison chart.

The corners of the placemat are rounded to prolong their lifespan.

Non-Slip Lens Cloth

This cloth is provided with non-slip dots to ensure an easy grip when cleaning lenses. The cloth removes fingerprints, smudges and dust from optical lenses.

Customized with Tokai logo.
